The Export-Import Bank of the United States helps the private sector to create and maintain U.S. jobs by financing exports of the Nation’s goods and services. To accomplish this mission, the Bank offers a variety of loan, guarantee, and insurance programs to support transactions that would not be awarded to U.S. companies without the Bank’s assistance.

The Export-Import Bank of the United States (Ex-Im Bank), established in 1934, operates as an independent agency of the U.S. Government under the authority of the Export-Import Bank Act of 1945, as amended (12 U.S.C. 635 et seq.). Its Board of Directors consists of a President and Chairman, a First Vice President and Vice Chairman, and three other Directors, all of whom are appointed by the President with the advice and consent of the Senate.

Ex-Im Bank’s mission is to help American exporters meet government-supported financing competition from other countries, so that U.S. exports can compete for overseas business on the basis of price, performance, and service. The Bank also fills gaps in the availability of commercial financing for creditworthy export transactions.

Ex-Im Bank is required to find a reasonable assurance of repayment for each transaction it supports. Its legislation requires it to meet the financing terms of competitor export credit agencies, but not to compete with commercial lenders. Legislation restricts the Bank’s operation in some countries and its support for military goods and services.

Activities
Ex-Im Bank is authorized to have outstanding at any one time loans, guarantees, and insurance in aggregate amount not in excess of $75 billion. It supports U.S. exporters through a range of diverse programs, which are offered under four broad categories of export financing:

—working capital guarantees, provided to lenders, so that they can provide creditworthy small- and medium-sized exporters with working capital they need to buy, build, or assemble products for export sale;
—export credit insurance which protects exporters and lenders against both the commercial and political risks of a foreign buyer defaulting on payment;
—loan guarantees which encourage sales to creditworthy foreign buyers by providing private sector lenders in medium- and long-term transactions with Ex-Im Bank guarantees against the political and commercial risks of nonpayment; and
—direct loans made to provide foreign buyers with competitive, fixed-rate medium- or long-term financing from Ex-Im Bank for their purchases from U.S. exporters.

Ex-Im Bank has initiated several new programs to broaden the range of customers and types of exporters it supports. It has also expanded its capabilities in the area of limited recourse project finance and has adopted a policy of matching foreign tied-aid credits to ensure that U.S. exporters do not lose sales in critical emerging markets. In order to make its programs more readily available, Ex-Im Bank works closely with many State and local governments in its City/State Partners Program.

Regional Offices
The Export-Import Bank operates six regional offices.

[For the Farm Credit Administration statement of organization, see the Code of Federal Regulations, Title 12, Parts 600 and 611]

The Farm Credit Administration is responsible for ensuring the safe and sound operation of the banks, associations, affiliated service organizations, and other entities that collectively comprise what is known as the Farm Credit System, and for protecting the interests of the public and those who borrow from Farm Credit institutions or invest in Farm Credit securities.

The Farm Credit Administration was established as an independent financial regulatory agency in the executive branch of the Federal Government by Executive Order 6084 of March 27, 1933. The Administration carries out its responsibilities by conducting examinations of the various Farm Credit lending institutions, which are Farm Credit Banks, the Agricultural Credit Bank, Federal Land Bank Associations, Production Credit Associations, Agricultural Credit Associations, and Federal Land Credit Associations. It also examines the service organizations owned by the Farm Credit lending institutions, as well as the National Consumer Cooperative Bank (also
